Objective

I am skilled in HTML, CSS and basic JavaScript as an enthusiastic web developer. I wish to gain new technical skills, help solve real-life issues and work on projects at the forefront of web development. I aim to join active teams and write high-quality code to offer the best solutions.

Technical Skill

Languages & Frameworks: Dart, Python, Flutter
Backend Technologies: Firebase
Version Control: Git, GitHub
Web Technologies: HTML, CSS
Tools: Android Studio, VS Code, Canva, Google Workspace, Microsoft Office
Soft Skills: Team Collaboration, Problem Solving, Communication, Time Management, Adaptability

Experience

Web Developer   *March 2025 – Present*
DigiRich – Mumbai, India

- Developing and maintaining responsive websites using WordPress, HTML, CSS, and JavaScript.
- Customising themes and plugins to meet client requirements.
- Collaborating with designers and senior developers to implement UI/UX improvements.
- Troubleshooting and fixing bugs to enhance website performance and user experience.
- Ensuring websites are SEO-friendly and optimised for fast loading times.
- Managing website content updates and integrating third-party tools as needed.

Web Development Intern   **16th Dec 2024 - 16th Mar 2025**
DigiRich – Mumbai, India   *Duration: 2 Months*
Technologies: Wordpress, HTML, CSS

• Assisted in completing an existing web project and made it fully functional.

• Fixed bugs and made UI adjustments under the guidance of senior developers.

• Learnt and applied new skills related to web development and SEO as per project needs.

• Created blogs and basic creatives using Canva.

Projects

anatoMe – Interactive Anatomy Learning App   **College -** Last Year Project
Technologies: Flutter, Firebase

- Developed an interactive mobile application for medical students to learn human anatomy through 3D visual models and detailed descriptions of various organ systems.
- Led the frontend development using **Flutter** to create a seamless, cross-platform user experience.
- Integrated **Firebase** for real-time database management, user authentication (email/password and Google sign-in), and data synchronisation across devices.
- Implemented key features such as user-friendly navigation, search functionality, bookmarking, light/dark modes, and user account management.
- Conducted **unit testing** and **integration testing** to ensure the app's performance, security, and scalability, successfully deploying the app for **Android devices**.

Education

University of Mumbai,	**Aug 2024**
Bachelor of Science in Information Technology	*CGPA* - *8.50/10*

Relevant Coursework:

Imperative Programming, Operating Systems, Communication Skills, Object-Orientated Programming, Web Programming, Python Programming, Data Structures, Computer Networks, Database Management Systems, Core Java, Software Engineering, Software Project Management, Artificial Intelligence, Enterprise Java, Advanced Web Programming**,** Advanced Mobile Programming, IT Service Management, Software Quality Assurance

Courses & Certifications

Google Foundations of User Experience (UX) Design | *Coursera*   **Oct 2024**

• Gained foundational knowledge of UX principles, wireframing, prototyping, and user-centred design.

• Learnt the design thinking process and basic tools for creating effective user experiences*.*

Software Engineering and Agile Software Development | *Infosys Springboard*   **July 2023**

• Gained knowledge of Agile methodologies and Scrum practices in software teams.

Programming Basics | *Great Learning*   **Jun 2023**

• Learnt core programming concepts like data types, variables, loops, and functions.

Software Development Life Cycle | *Great Learning*   **Jun 2023**

• Understood SDLC phases, models, methodologies, and software project flow.

HTML & CSS – Certification Course for Beginners   **Jun 2022**

• Acquired hands-on knowledge in HTML5 and CSS to build structured and styled webpages.

Create a Website Using Wordpress | *Coursera*   **Feb 2022**

• Learnt to build and customise websites using WordPress and Elementor.
