WORK EXPERIENCE

Web Developer – Invictus Web Solution, Aurangabad

08/2023 – Present

- **Client Collaboration & Website Development:** Gathered client requirements and designed both static and dynamic websites to drive business growth, starting as an intern and continuing as a full-time developer.
- **Technical Skills:** Utilized HTML, CSS, JavaScript, PHP, and WordPress (Elementor) to create responsive, userfriendly websites, enhancing site functionality and performance.
- **Graphic Design:** Developed and refined website layouts and graphics using Photoshop, including custom headers and visual elements.
- **Leadership & Team Management:** Supervised a team of 3-4 interns, guiding them through the development process and ensuring project milestones were achieved. Managed high-profile projects, such as the travel website for a Yemen-based client. ○ **Project Success:** Delivered a travel website for a Yemen-based client, which led to additional business and client referrals due to the high quality of work.
- **Ongoing Learning:** Demonstrated a quick learning ability with ongoing education in **the MERN stack (MongoDB, Express.js, React, Node.js)**, aiming to further enhance both frontend and backend development skills.
